

## *Breen Field (Bristol, CT)*

---

Primary field for Little League Northeast Regional Championships; shared with local Bristol, Connecticut Little League Association.

### **Problem:**

From years of overuse and various maintenance practices, field had become worn and uneven, and unacceptable for championship play (especially for games to be televised on ESPN!). That's when Little League Baseball called Championship Turf Services.

### **Solution:**

Championship Turf Services stripped the existing infield grass and baseline panels, laser graded the area and installed sod (Summer 2002).

**Renovated Breen Field**

**Ready for Little League  
Northeast Regional action!**
